

## about

**PT Media provides professional website and related services for small organisations based in South Australia.**

PT Media provides online marketing services including website design and development, web hosting, organic search marketing and other communications services.

PT Media was established in 2002 and currently services clients based in Adelaide, Adelaide Hills and the Fleurieu Peninsula. PT Media previously operated in Melbourne for several years and services national clients based in Sydney.

### Services

PT Media works with you to build an attractive website that clearly represents your business or association. Websites are custom designed according to your needs, optimised for Google search, as well as being fast and mobile friendly.

PT Media has achieved excellent organic Google search results and monitors all client websites over time providing reports and making any changes required to manage and improve your search listings.

PT Media uses a private fully managed high-speed server and keeps all software updated to ensure your website is secure and always looking its best.

Your website content can be updated whenever you need, and technical support is available with any issues that arise. All websites are continually updated and flexible in design so they can evolve with you and your business over time.

### Payments

PT Media can work within your budget and specific needs. Payment terms are 30 days with options including bank transfer and cheque. Periodic payments are also available.

### Quotes

Cost estimates are available on request and projects are worked on until you are satisfied with the result. Contact Alice to request a quote or website review.
