

hosting

Web Hosting

PT Media provides premium high-speed web hosting on a private secure Australian Server. Web Hosting is fully managed, and all websites are backed up daily for 2 weeks. PT Media has provided web hosting for many years, so the experience is there to keep your website secure with all the latest software features.

Domain Names

PT Media provides private domain name management services so you can be assured your domain is renewed and managed while you get on with your daily activities. PT Media can provide advice regarding domain name selection, manage domain name transfers and any technical needs.

SSL Certificates

PT Media is a reseller of SSL Certificates and has years of experience managing SSL certificates. SSL Certificates are included with all websites managed by PT Media to ensure data security and enhance customer confidence. Keeping your website secure will also help improve your Google search listing and increase visitor traffic.

DNS and Email

PT Media provides web hosting email accounts for administration purposes only. For greater security, PT Media recommends Office365 Business Premium at \$17.50 per user per month. This service includes all Office apps plus Exchange mail. PT Media provides dns services to support exchange mail and can liaise with other Service providers.

Hosting plans

	Monthly	Annual	Monthly	Annual	Space	Traffic
	FY2021	FY2021	FY1920	FY1920
